ISOMAX 4RF Podium Mic

The ISOMAX 4RF's unique Active Vibration Isolation detects and subtracts table thumps, handling noise, and other vibration from the signal, providing full, clean sound without the need for bulky shock mounts. Its tightly-controlled, consistent pickup pattern preserves voice quality at any angle while reducing feedback. Supplied with windscreen.

example: M4 H P 5 RF 18 E
 ① ② ③ ④

① **Directional Pattern:**

H = Hypercardioid
C = Cardioid

② **Sensitivity:**

5 = Standard
4 = High Gain
